The secret ballot will probably find no place in the proceedings of the Stockton convention. They do not resort to such tricks to avoid personal responsibility in State conventions.

Whenever a politician holding delegated powers in a political convention proposes a secret ballot you can make up your mind that he wants to do something that he is ashamed of.

The fashionable duel near Ostend was hurried toward the close. It was getting on in the afternoon and at 6 o'clock the principals would have been compelled to put on dress suits.

The publication of the Blaine letters, which was appointed for the Epiphany and postponed to Easter has now been deferred until the twenty-second Sunday after Trinity. Young Mrs. Blaine has gone to Europe.

The Anarchists of Berne, Switzerland, must be a cowardly set. They wanted to get even with the chief of police, and so they exploded a bomb in the house of his mother. Hanging is too good for that kind of cattle.

The day the lottery ring in New Orleans discovered it was beaten by 20,000 majority six inches of rain-fell in six hours in that city. There has been no such cleaning up in New Orleans since Ben Butler got tired of hearing that the yellow fever could be trusted to destroy his army.

The American Consul at St. Petersburg says that the Russian government has decided to establish a weather bureau similar to the one in successful operation in this country. Weather predictions will be issued and crop reports gathered in the hope of assisting in preventing recurrence of famine.

Since the Gladstone pamphlet against woman suffrage appeared the suffragists of England have been reverencing the memory of the late Lord Beaconsfield, Gladstone's opponent, who believed in municipal suffrage for women and would in time have favored female suffrage for Parliamentary elections. The Tory party may take it up now that the Liberal leader has come out in opposition to it.

After paying \$2.50 an acre, with the cost of location and other expenses, the Sisson boomers find that he could have obtained plenty of good land in Minnesota or the Dakotas for the same money and not situated in the center of an Indian community. But the boomer, scented with arnica, can shoulder his crutch and show how claims are won, and there is compensation in this for Americans of the boom temperament.

CONNECTICUT, always in the lead in the field of invention, has a plan of "road reform." The Connecticut scheme is a state board of three highway commissioners to hold their positions for six years. These control road construction and maintenance all over the State. The State treasury pays part of all the expense and the locality benefited the rest. If it works no better than the average California commission the plan will not be a success.

The London Times speaks slightly of the United States Treasury as a "pig silver warrant storehouse." The Times should know that the silver warrant of this Government for \$1 represents pure silver of the commercial value of 100 cents and is the equivalent of pure gold of the same amount. The silver pig is properly looked after, is pretty good stock, and a round-up of them would be welcome in any corral in Europe.

The bill to promote the safety of national banks has passed both houses of Congress and is back in the House for approval of certain amendments made by the Senate. The clause added by the Senate authorizes the banks to extend their circulation to the full amount of the bonds deposited with the Treasurer. The bill itself restricts the loaning of money. No president, vice-president, cashier or any other employee of a bank can loan money until such proposition has been submitted to the directors and approved by them. This restriction will prevent a great many rascalities.

The San Francisco baseballers have played a sharp trick upon the Los Angeles team and robbed the latter of their phenomenal pitcher, Balz. This is quite in keeping with the San Francisco way of doing things, and has been exemplified over and over again in many fields besides the diamond. Having first instigated Balz's dishonorable conduct in repudiating his contract with the Los Angeles team it is quite natural that San Francisco should furnish a complainant secretary to state that the recalcitrant should not be suspended from the league. Balz will next bob up as a member of the San Francisco team. It is doubtful, however, whether much real advantage will accrue to the manipulators of this crooked piece of business. The whole proceedings of the league will be discredited, and seeds of dissension will be sown which may finally disrupt the organization. Far play is a jewel in baseball, as in every other kind of amusement, and when this is eliminated the true spirit of the sport is gone.

Unpledged Delegates.

The Chicago Tribune takes strong ground in favor of sending unpledged delegates to the National Republican convention at Minneapolis. It urges that the drift of political opinion does not point to any foregone conclusion, and the convention should shape its action according to the very latest developments at the time of its meeting. There is but one thing certain, and it is that the campaign of 1892 is going to be one of the closest and most hotly-contested this country has ever known. Its result cannot be predicted, nor is it safe to assume that the present factional conditions of the Democrats will lead them to make the blunder of a bad nomination or of a nomination and platform upon which they cannot unite.

The Tribune adds:

It is questionable whether it is wise under any circumstance to hamper delegates with instructions, but it is especially unwise when the situation is as unsettled as it is now. It is probable that the issue of the campaign will be settled in two or three States commonly reputed as doubtful. Instructions given to delegates to vote for one candidate or another under such conditions may change materially, as compared with the opinions of delegates who come fresh from those States which will decide the contest. Unpledged delegates will be better able to weigh these conditions than they will be if they go there merely as the mouthpieces of conventions held months before and under other political indications. They ought not to be gagged or manacled or fettered, but they should be free to express the wishes of their constituents when the convention meets.

This is excellent advice to the Republican convention which is to meet in Stockton tomorrow. Judging from opinions already expressed by party leaders and the tone of resolutions adopted by various county conventions it is hardly probable that a very strong effort will be made at Stockton to instruct the delegates to Minneapolis.

The Texas famine district is mainly confined to Starr, Hidalgo, Portacene, Seapata, Mexico, Duval and Neucenes counties, in which some of the people are now eating the meat of cattle which have died from starvation or disease, and drying the meat for future use.

The losses on cattle, the principal industry in that section, are estimated at 80 per cent. of the total number; in Neucenes county alone 60,000 head have died. The famine district contains a population estimated at 15,000 to 20,000 people, and probably one-fourth of this number require assistance, while the resources of the balance of the population is only adequate to maintain themselves and families. The people have appealed to their State in-vain, and another appeal, signed by the leading citizens, and addressed to the public, has been published, asking for contributions of corn and other supplies, to be addressed to the Central Committee, Starr county, care of B. R. Monroe, county judge. While we are helping the stricken people of Russia, we should not forget that charity begins at home.

The Parisian Anarchists got things a little mixed in their recent manifesto. Instead of saying that they seek a condition of society "where all may freely produce according to their strength, while amply consuming according to their wants," they should have said "when Anarchists may produce according to their desire, and consume according to their inclination."

PRESIDENT HARPER, of Chicago University, is working to establish a school of journalism as one of the departments of his great university. Similar schools have been established in connection with other colleges, but with indifferent success. There is a consensus of opinion among the press that a newspaperman must learn his profession by practical service.

LETTERS TO THE TIMES.

London Dated Fruit Market. LONDON, April 18.—[To the Editor of THE TIMES.] In view of the special interest which we take in all matters concerning the California fruit business, we have very much pleasure in giving a resume, for the benefit of your readers who are concerned, of the present outlook and prospects of the English market for dried fruit, as we consider it a matter of considerable utility and advisability that fruit-growers and shippers should be kept fully advised of the course of this market in order to guide them in their operations, and we intend henceforward to regularly circulate our reports with this object.

The season, so far as this market is concerned, is now completely at an end, and sales are somewhat difficult to effect.

Stocks are, of course, comparatively low, and prices have considerably receded during the last few weeks, holders being anxious to meet the views of buyers in order to reduce stocks as much as possible. In view of the fact that there appears to be some uncertainty in the minds of California growers as to the duty on Californian dried fruit, we beg to state for the benefit of your readers that it is only apricots, prunes and plums which are liable to duty, these fruits having to pay at the rate of 7 1/2 per cent. On the other hand, apples, pears, peaches and nectarines are free and pay no duty whatever.

As you are aware, we are devoting ourselves especially to the Californian fruit business, and we are specially anxious to create a good market here for dried fruit. We are, dear sir, yours obediently,

How Far Will They Carry It? LOS ANGELES, April 30.—[To the Editor of THE TIMES.] Your editorial of this morning is a fair and candid showing up of the evils of the secret ballot applied in conventional elections. It is a pity that the convention why not in the Stockton convention? The next set of delegates would like the same exercise of free will without personal accountability to a constituency. Will it suit?

POLITICAL POINTS.

An Iowa paper observes that Cleveland and Gorman are to be pitted against each other at Chicago. The one that is nominated is to be the most pitted.—[Kansas City Tribune.]

Those Indiana endorsements of Cleveland and Gray are almost as hot as a wet blanket in January. Another set like them and both will be broken in from chills.—[Philadelphia Inquirer.]

The production of pig iron ten years ago was about 3,800,000 tons. Last year it was 9,000,000 tons. This development has all taken place under the protective policy of the Republican party.

A fishing schooner called the Grover Cleveland has not been heard from in many weeks and is supposed to be lost. A political bark of the same name is drifting to the breaker's beach. The Republican party wish to call the attention of certain heralds of the Cleveland wave to the fact that Mr. Hill's machine can still turn out a Congressman when the past grand master of Tammany bribery drops a nickel into it.—[Petroleum Tribune.]

Democracy's bourbon menagerie at the National capital so far outranks all the aggregations on exhibition this year. It will be remembered that when Congressman Walker was making a speech a few days ago, a member stole his watch, which he had taken out and exhibited to illustrate the benefits to be derived from the tariff. Still later, another member poured whiskey into Congressman Cobb's coffee, while Cobb was addressing the house, which so demoralized that gentleman that he alone of his friends pulled him down before he had concluded his speech. Iowa supplies one clown, Tom Bowser, who values his ring of Henry George's idiotic land tax vagaries.—[Iowa State Journal.]

PERSONAL MENTION.

Bob Ingessors' conscience may hurt him, but his American citizenship is not yet reached the emancipation stage. He got weighed the other day, scoring 321 pounds.

Mrs. James G. Blaine, Jr., has sailed for France on the steamer La Bretagne in company with her cousin, Charles McCallister and his wife. Mr. Blaine, Jr., a monument will be unveiled in Virginia some time during May, was one of the bravest fighters in the Confederacy. He was Lee's trusted lieutenant.

Miss Jeanne Lawrence, the well-known American pianist, a pupil of M. Critch, achieved a great success on the occasion of her recent debut at Nice in the part of "Gilda" in *Rigoletto*.

John Pike, the historian and evolutionist, is so overworked by letters from people unknown to him that he feels it impossible to undertake to answer them, and many he is unable to read at all.

Father Daren, a Roman Catholic priest in Wisconsin, who rescued the daughter of a wealthy Parisian from drowning in the Mediterranean last winter, has received from her father \$55,000, which the priest will devote to charitable purposes.

WOMAN'S WORLD.

Mrs. Cleveland's favorite flower is the Peony.

Dr. Mary P. Jacob, in New York, and Dr. Mary Dixon, in Washington, are each reported to earn \$40,000 a year at their profession.

The Grand Duchess Alexandrine of Mecklenburg-Schwerin, who recently celebrated her 15th birthday, is the oldest of European princesses.

Fanny Crosby, who is 65 years old, pleads guilty to having written 3000 hymns and has not even yet reformed far enough to take a new hymn.

Miss Rose O'Halloran of San Francisco is the first woman to be made a member of the Pacific Coast Astronomical Society. She is one of the cleverest women astronomers in the world and writes of the science entertainingly for magazines.

Miss Helen Gladstone, the daughter of the "Grand Old Man," has been vice-principal of the University of Cambridge for a number of years. She is 43 years of age, quite retiring, though a brilliant conversationalist.

Miss Malvina M. Bennett has been appointed instructor in elocution in the Leonard Stanford Jr. university. Miss Bennett held this place for ten years at Knox College, Illinois.

Knox College carried off more prizes in State and interstate contests than any other college in the country.

Beastie's Secret.

[Household.]
"I know the secret!"
"Knows bunny little Bess."
Her golden curls all flying;
"You'd never, never guess."
"You'd never, never guess."
That cries and cries and cries,
His head is smooth as grandpa's,
And has such little eyes.

"His face is red—just awful,
With such a sunny nose;
It has such sunny eyes,
And such a lot of toes.
It isn't very pretty,
Not half as nice as me;
But mamma calls it darling,
And sweet as sweet can be."

"It isn't a new dolly,
For dolls can't breathe, you know,
It's—Oh, I almost told you,
Goodbye, I've got to go.
I want to run and kiss it—
Away from little Bess.
Without telling the secret
I leave for you to guess."

For Malicious Prosecution.

[San Diego Tribune.]
A suit was instituted yesterday by F. K. and Belle Clark against E. E. Cranford and Jacob A. Salkey, asking for \$10,000 damages. The complaint stated that on April 15, 1892, the plaintiffs were confined and imprisoned at Los Angeles. One was liberated and the other remained in confinement in the jail for over one month. On June 1 the case was abandoned and they were both set at liberty; that during the difficulty the charges and arrests were published extensively in many newspapers. That as a result they were branded as criminals, when in fact they were not, and therefore were damaged to the amount of \$10,000, which they prayed the court to award them.

Climate and Whisky.

A correspondent says the climate was exhibited in Tucson on the other day eighteen inches long. Nothing remarkable about the statement, other than it shows what the climatic effects sometimes do.

SPORTING NEWS.

Status of California League Ball Players.

Result of the First Month's Work Shown in Figures.

The Angels Make a Fine Showing at the Head of the List.

The Athletic Club's Annual Field Sports—Much Interest Manifested in the Event—The Maher-Purcell Fight—Sporting Notes.

Below will be found the individual batting averages of the players in the California State League for the first month's work of the season of 1892. The figures are not official, of course, but they are doubtless correct, as they were compiled from the scores telegraphed to THE TIMES. Los Angeles has the double distinction of heading the list with Jimmy Stafford, a pitcher. Six of the Angels will be found among the first fifteen men, and the boys are just getting their batting eye. "Kid" Hulien leads the third basemen, Glenavlin the second basemen, "Pap" McCauley the first basemen and Hissamaear, the short-stops, in hitting. In short, if baseball figures count for anything, the Angels are bound to come to the front as soon as they get down to work. The club will return home Tuesday, and opens up again with the reorganized Colonels on Thursday. These figures should be preserved for comparison with next month's showing:

CHESS TOURNAMENT.

The local handicap chess tournament has progressed favorably during the past week, and the race for first and second places is now at its most interesting stage and bids fair to be very close. The leading players are Thompson and Johnston are in the lead and they will probably capture the three prizes. Some of the games played have been very interesting and replete with strategic positions that required clever analysis. Los Angeles has a number of good players, whose play can favorably compare with amateur chess generally.

Following is the standing of the players:

Players.	Won.	Lost.
Pierce (class 1)	9	2
Thompson (2)	8	1
Johnston (3)	8	2
Cooke (4)	7	3
Miller (5)	7	4
Hambrook (6)	6	5
Deed (4)	6	5
Clark (4)	6	5
Smith (4)	6	5
Clark (4)	6	5
White (5)	5	6
Brown (5)	5	6
Hastings (5)	5	6

The current tournament has proven to be so interesting that a team match is in contemplation between the chess club and the Los Angeles Athletic Club, and the probability that the event will be materialized.

ATHLETIC CLUB'S ANNUAL FIELD DAY.

Most of the local athletes and cyclists of this city are getting themselves in trim for the annual field sports to be held on Decoration Day, and some of the events will be very closely contested, judging from the present form of the men. The matter is still in the hands of the Athletic Club, who, for some unaccountable reason, appear to overlook the fact that although but thirty days yet remain within which to prepare for the event, no programme or official announcement has been made up to the present time. The fact that a quarter of a mile track has been laid at the Athletic Park precludes, of course, the idea that there was any doubt as to the intention of the club to hold a meeting this year, but it can not be held as conducive to the ultimate success of a meeting to delay the issuance of the programme therefore until within a week or so of its occurrence.

While on the subject of programme a few suggestions may not be considered out of order.

There are several events in which the general public takes little or no interest. These should be eliminated. One of these is the hop, step and jump, which is a very uninteresting and unexciting event. The more varied the programme and the closer the contests the better will the spectators be pleased. Much, therefore, depends upon the handicapper, who should strive to bring the cracks together and not, as is usual, so place them that they can alternately evade each other.

THE MAHER-PURCELL CONTEST.

The glove contest to a finish between Billy Maher, the clever Australian, and Frank Purcell of Salt Lake, which comes off at the Pastime Club in this city on Wednesday, the 11th inst., promises to be one of the most interesting and exciting local events of pugilism. The match, it will be remembered, grew out of a meeting some months ago, on which occasion Maher failed to stop his opponent

in ten rounds. Purcell, who lays claim to a record, unblemished by a single defeat, then challenged the Australian to a fight, and the club having guaranteed a purse of \$500,00, the offer was accepted. Both men have been hard at work for some time past at their respective training quarters preparing for the battle, which will undoubtedly be well contested one from start to finish.

SPORTING NOTES.

Henry Peterson of California and McLean of British Columbia have made a match to row in skiffs for \$1000 a side.

Strathmeath, winner of last year's American Derby and candidate for the Brooklyn handicap is very ill and may not recover. It is said that he cannot possibly start at Gravesend.

On the return of Lord Sheffield's team of cricketers from Australia Alfred Shaw, the veteran bowler, will have a testimonial benefit at Nottingham, when Lord Sheffield's eleven will play a team representing the combined strength of all England.

A meeting of the Southern California Kennel Club will be held tomorrow (Tuesday) evening at the office of the Troy Laundry, corner First and Spring streets, for the purpose of receiving the report of the recent show and the nomination of officers for the ensuing year.

Peter Jackson is generally credited with a record that includes no defeats. He was beaten once by Farnan, the Melbourne blacksmith, and in the return battle the fight was a draw. In the opinion of the experts Farnan would have won if the fight had been continued.

Robert Bonner is very enthusiastic over the two-year-old colt by his great ally, and he has purchased the colt at the Stanford sale last week. The youngster was 8 years old last month, and he can show better than a 2:30 gait. The Anselms are natural trotters and they should make great race-horses.

CALIFORNIA FOOD FISHES.

A Talk with the Man Who is to Prepare the Exhibit for the World's Fair.

[San Francisco Call.]
Alfred La Motte of Glen Ellen, Sonoma county, who has been selected to prepare California fishes for exhibition at the World's Fair, has taken temporary quarters at the rooms of the State Board of Trade. In conversation with a representative of the Call yesterday Mr. La Motte said that he would be ready to commence the work of preparing specimens next week.

"You see," said this well known ichthyologist, "the preparation of an exhibit such as this will require not only a great deal of time, but a great deal of patience and care. I have been delayed in the matter because it is expected that the Government will in this instance remit the tax on pure spirits to be used in the preserving of the fishes, and that will be quite an item as a great deal of pure spirits will have to be used.

The fishes will be exhibited in clear glass jars that are three feet in height. The fish will be prepared in a manner to preserve all the bright colors, then they will be suspended to a hook fastened in the lip, and on each jar will be printed the commercial name of the fish and the locality from which it was procured. Scientific names will be avoided and will only be used in a catalogue to be made up of the fisherman's names. For instance, there is a large containing cod it will not be labeled "Morhua Prunosa," but will have a label on which will appear in plain letters, "tomcod."

"The exhibit will be made of all kinds of fishes of the State, will it not?"
"The principal portion of the exhibit will consist of the food fishes of the rivers of the State, the lakes and the bays and the ocean along the California Coast. I have been very busy in securing a specimen that is not of the edible class, but will make a very fine show, it will go into a jar. There will be specimens from every fishing point on the Coast. San Diego offers to send a great variety. There is a greater variety of fish in this State than what people generally have any idea of. Why, San Francisco alone handles in round numbers 900,000 pounds annually, and this is represented by 150 varieties of table fish."

"The fish," continued Mr. La Motte, "is first emptied, then filled with absorbent cotton to give the natural color, and then put into a solution, different kinds of fish requiring different solutions. These have to be prepared with great care, and the beautiful coloring, and the solution will have to be changed several times before the specimens are ready for shipment, so you can see that that alone will entail a great deal of labor. To do the work I shall have to employ two men."

Some of the specimens will have to be handled with the greatest of care. Some of the fishes are so delicate that in the matter of packing them for transportation they will have to be wrapped in the finest kind of cloth, something after the style of a mummy, and great care will have to be taken that not a piece of string is tied around the fish, for where a string might be tied it would leave a mark, and where the fish is banded it will have to be

DISASTROUS FIRE.

Nearly a Score of Buildings Destroyed at Winthrop.

WINSTON, May 1.—[By the Associated Press.] Sixteen or eighteen buildings covering nearly three acres were burned about 2 o'clock this morning. The fire started under the stage of the Princess Opera-house. The flames spread with frightful rapidity, and as the water works were shut down for repairs hydrants were useless, and the fire burned out.

Among the places destroyed were: McGrover's livery stable, thousands of dollars worth of harness and all the wagons of the Dominion Express Company, Frost & Wood's agricultural implement warehouse, Green's feed store, Cath's grain warehouse, six residences and stables, besides a carriage repair shop and the Salvation Army barracks. The Grand Union Hotel was in imminent danger, but the firemen, aided by a favorable wind, saved it. The Uncle Tom's Cabin Company lost everything. The proprietors of the opera-house are heavy losers. The total loss is heavy, but cannot be estimated. The insurance appears light.

Mrs. Osborne Released from Jail.

LONDON, May 1.—Mrs. Florence Ethel Osborne, who was sentenced to nine months' imprisonment for the theft of pearls from her friend, Mrs. Hargreaves, and for subsequent perjury in connection with a libel suit, was today released from prison on an order of Home Secretary Matthews. Osborne met his wife at the jail and conducted her to the residence of his parents.

During the past week Mrs. Osborne has been utterly prostrated, and fears were entertained that if she were kept longer in prison it would result fatally to her.

A Pickpocket Shot Dead.

CHICAGO, May 1.—Joseph La Montagne, an ex-convict, who was pocket picking in the crowds watching the May day parade, was pursued by Policeman Michael Rafferty. DISASTROUS FIRE.

Nearly a Score of Buildings Destroyed at Winthrop.

WINSTON, May 1.—[By the Associated Press.] Sixteen or eighteen buildings covering nearly three acres were burned about 2 o'clock this morning. The fire started under the stage of the Princess Opera-house. The flames spread with frightful rapidity, and as the water works were shut down for repairs hydrants were useless, and the fire burned out.

Among the places destroyed were: McGrover's livery stable, thousands of dollars worth of harness and all the wagons of the Dominion Express Company, Frost & Wood's agricultural implement warehouse, Green's feed store, Cath's grain warehouse, six residences and stables, besides a carriage repair shop and the Salvation Army barracks. The Grand Union Hotel was in imminent danger, but the firemen, aided by a favorable wind, saved it. The Uncle Tom's Cabin Company lost everything. The proprietors of the opera-house are heavy losers. The total loss is heavy, but cannot be estimated. The insurance appears light.

Mrs. Osborne Released from Jail.

LONDON, May 1.—Mrs. Florence Ethel Osborne, who was sentenced to nine months' imprisonment for the theft of pearls from her friend, Mrs. Hargreaves, and for subsequent perjury in connection with a libel suit, was today released from prison on an order of Home Secretary Matthews. Osborne met his wife at the jail and conducted her to the residence of his parents.

THE MILLS MEETINGS

To Commence at Simpson Tabernacle Thursday.

Some of the Unique Features of This Great Evangelistic Work.

Thirty-two Churches Co-operating in the Work of Preparation.

What Mr. Mills Has Accomplished in the East—The "Mid-week Sabbath" and How It is Observed.

The coming evangelistic meetings, under the leadership of Rev. B. F. Mills, which open in this city next Thursday evening, have enlisted the cooperation of thirty-two churches, and the work of preparation moves forward to completion. The unique feature of this great evangelistic movement consists in the division of the city into districts, each district having a complete set of committees, and the holding of special services in these districts successively for a number of days, under the district committees, and then massing all the districts in a closing series of great union services, made up of the children of the respective district committees, and with the massed choirs and ushers of all the districts. The idea of this peculiar form of organization and this method of carrying on an evangelistic movement in a large city, originated with Mr. Mills, and was first carried into effect, with great success, in the city of Cleveland one year ago in the wonderful revival services held by him in that city, in which forty-five churches were united, and which resulted in thousands of conversions.

This plan, on the most extensive scale ever yet attempted, has been brought to the greatest possible perfection in all its details in the Christian organization, and every minutest feature of it is under the personal supervision of Mr. Mills. To many of those who, under his direction, have been engaged in the construction of this extensive and apparently complicated machinery, the mechanical features of the preparations seemed at times unpleasantly obstructive, and some were disposed occasionally to criticize, and to question the necessity or propriety of it all, for a great spiritual work. But Mills was firm and insisted upon attention to every detail. In speaking of this feature of preparation, Rev. Dr. J. J. Francis writing of the great revival in Cincinnati says:

When at length the time came for the services to begin the wisdom of the master mind which, in the light of a large experience and under the guidance, as no one now doubts, of God's spirit, had devised the entire scheme from beginning to end, became at once apparent. The great machine, so perfect in all its parts, was put in motion, and unseen and unheard by the gathered multitudes, itself hidden entirely from view, as noiselessly and smoothly, and yet as efficiently as the mighty Corliss engine at the Centennial, it did its work, and accomplished its purpose. There was no further thought of criticism. Every one who was familiar with its workings saw the value of it and the marvelous wisdom with which it had been planned. Each committee and each member of each committee had a definite work to do and did it without jar or friction.

Thus all the mechanical arrangements were thoroughly provided for, without ever being brought into the meetings to distract the minds of the people, or to disturb in any way the solemnity of the services. During all the six weeks of daily services not a single collection has been taken up, nor has any reference been made to the work of any of the committees.

And as the work has progressed among the people, as had been the case with the ministers of Christ throughout their preparatory work, denominational differences have been forgotten, and the hearts of Christians have flowed together in a unity of desire and purpose and effort, such as this city has never witnessed before. It has been a realization in fact of the ideal expressed in the words: "One is your Master, even Christ, and all ye are brethren."

One of the peculiar features of the plan of Mr. Mills is to observe one day in the middle of the week as a day of special prayer, called the "mid-week Sabbath," on which the great meetings are held, and on which the churches shall request of the business men a general suspension of business—first, in order that the employees may attend the services; and, second, as a token of respect for the religion of Jesus Christ.

In Cincinnati the matter was placed in the charge of a special committee, who were assisted by more than sixty ministers and laymen. The proposition was at first a startling one. Under almost any other circumstances it would have seemed an utterly impossible thing to attempt to secure the closing up of the great business houses and manufacturing establishments of Cincinnati in the midst of the week out of respect for a religious service; but the spirit went before in a wonderful manner, and this impossible thing was accomplished. And a remarkable day it was—one of the most remarkable days in the history of the city. About a week before the time the members of the special committee, previous to any public announcement, called upon some of the great firms in different lines of business and secured their signatures to the agreement to close their places of business on the day named. These signatures were promptly and cordially given, until about fifty of the largest wholesale and retail houses in the city were pledged to observe the day. Then the committee of two or more, to the number of sixty ministers and laymen, volunteered to canvass the principal business streets, and in a few hours hundreds more had signed the agreement. A great many others sent in their signatures voluntarily, either through their pastors or directly, and before the close of the preceding week it was evident that the closing would be very general.

When the day came the scene was a marvelous one. An almost Sabbath stillness rested upon the great city. Everywhere stores, offices, factories, etc., were closed, and large cars on the doors and in the windows read: "Closed on account of the special day of the Mills meetings."

It is impossible to give the exact number of firms which closed up their business on this remarkable day, as many closed without reporting; but the number is generally estimated at about 8000, including all lines of business. Among them were not only Protestant Christians, but large establishments owned by Catholics, Israelites and professed unbelievers, out of respect for the moral and religious element of the city. His honor, Mr. John B. Mosby, Mayor of the city, himself, not a professing Christian, wrote a letter commending the movement, and this singular feature of this mighty work left a very deep and lasting impression upon the whole community.

High, however, above this, and all

other external features of this blessed revival, there have been, at all times and in the entire movement the mighty power of the gospel, "the truth as it is in Jesus," and the presence and effectual working of the Holy Spirit in the hearts of men, without which all plans and devices must have failed, but with which the efforts of the evangelists and God's people have achieved a glorious and glorious success.

The meetings open in Simpson Auditorium next Thursday evening.

Sad Case of Destitution.

There is a sad case of destitution on Bloom street, just below New Main, which needs looking after at once. In a small cottage at this place lives a family by the name of Cook, consisting of a woman and three small children. The people are Danish and came to Los Angeles some weeks ago. The husband and father is said to be a worthy man, but being unable to secure employment, started out in the country to look for work. The woman is about to be confined, and is almost helpless. The case was reported to Rev. Mr. Collins of the Railroad Street Church, and that gentleman has been assisting the family. To add to the poor woman's annoyance the water company has shut off the supply. A kindly disposed citizen went, to the company's office and offered to pay Mrs. Cook's water rent, but the company refused to take it and turn on the water, unless some back dues contracted by the tenant who preceded Mrs. Cook, and with whom she had nothing to do, were also paid. In the meantime, the poor woman has to get water from a pump some distance away, as her neighbors are afraid to allow her to get a supply from their hydrants for fear that their supply will also be cut off.

The Local Theosophists.

The regular weekly meeting of the Theosophical Society at St. Vincent's Hall last evening was well attended, probably a hundred members of the organization and their friends being present. The feature of the meeting was a short lecture by Miss Walsh on "The Esoteric Christ," which was well received. A Japanese theosophist, named Hiral, also addressed the meeting at some length, giving a very intelligent talk on the progress of civilization in Japan, and the influence of western ideas.

The meetings are held at St. Vincent's Hall every Sunday evening.

Malaria

Malaria and chills and fever are due to the inhalation of watery vapors and gases arising from decayed vegetation. The human system is continually tired, and worn out, has no energy, is subject to aches and pains in the back and limbs, and is perspiring one moment and cold the next. Joy's Vegetable Sarsaparilla is more effective in this trouble than all the potent Sarsaparillas put together, for the plain reason that it has stimulating properties and a perfect bowel regulating action not found in the cure of this ill. J. V. S. soon regains its vigor.

JOY'S Vegetable Sarsaparilla.

Insist on Joy's. Most modern. Most effective. Yet same price. It is the only bowel regulating Sarsaparilla.

CONSUMPTION

CAN BE CURED!

Thousands of living witnesses who have been cured by

Dr. M. Hilton Williams,

Can testify to this fact in sincerity and in truth.

All diseases of the Head, Throat and Chest treated by our new and improved system of Medicated Inhalation and Compound Oxygen Gas, which cures the remedies directly to the diseased parts, thereby effecting cures in many of the so-called incurable cases, the greatest of which is the most delicate idea of ever being cured.

CONSUMPTION!

The following are prominent symptoms in the first stage of consumption, which always exist a thorough examination should always be made, with a view to arrest the disease if shown to exist. There is usually a sense of weariness upon a little exercise, a disposition to remain passive and idle, dependency, often from no apparent cause, a peculiar sensitiveness to the effect of cold, and a breathlessness upon moving quickly, or descending a hill or stairs, a slight hacking cough, with or without expectoration, extending upon slight exertion, rising pains through the chest or back, or under the shoulder blade. The symptoms are more noticeable toward or during the night: slight fever in the afternoon; cold feet and hands, or in many cases blue lividity of the lips and roots of the finger nails. Sometimes spitting of blood or slight streaks in the mucus, the first indication of tubercular deposit, or it may be a peculiar sensation in the hands, or the palms of the hands, or an afternoon flush on the cheeks. The slow and gradual inroads of this form of consumption leave the stomach and appetite undisturbed for a considerable time. Finally, however, preceded by night sweats, supervene, preceded by diarrhoea. Then the loss of flesh and strength becomes rapid, the chest contracts, the features sharpen, the eye attains an unusual brilliancy, and the patient begins to realize that he is in the last stage of confirmed consumption.

Persons suffering from this system of practice can use the remedies at home as well as at our office, and which will cause no inconvenience or hindrance to business whatever. Those who desire to consult with me in regard to their cases had better call at the office for an examination, but if impossible to do so, the office personally can write for list of questions and circular, both of which will be sent free of charge.

醫良世壽

"Skillful cure increases longevity to the world"

如藥精脉

"Ingeniously locating diseases through the pulse and excellent remedies are great blessings to the world."

The above are two fac similes of many REWARDS OF MERIT or DIPLOMAS OF PROFESSIONAL SKILL which have from time to time been awarded the CELEBRATED CHINESE PHYSICIAN, DR. WONG, for his superior medical abilities and curative powers.

It has long been customary among the Chinese people when one becomes sick and when repeated attempts to cure him have failed, and he is perhaps given up to die, if after having been taken to an eminent physician, he is cured of his disease—the cured, too in addition to the regular fee for professional services rendered, makes the physician a present as a token of gratitude for his restoration to health and the prolongation of his life. This present consists usually of a broad plank, presenting much the appearance of a sign-board, filled with characters entirely meaningless to the average English scholar, but full of meaning to the successful physician and his friends. It is a motto which highly compliments the physician for his great skill in effecting a cure of the disease which once afflicted the donor.

It is not an uncommon thing to see a great number of these COMPLIMENTARY DIPLOMAS adorning the office walls of Chinese physicians in their native country, and indeed a number of the most successful ones in this country are the happy possessors of a few of these high tokens of very superior medical ability.

PASADENA.

A Paper Published in Pasadena Ten Years Ago.

May Day Festival Tonight at the Operahouse.

A Cake Walk by Colored Swells from Los Angeles.

A Quiet Sunday in Town—Various Happenings of Local Interest—People Coming and Going—Brevities.

[Branch office, No. 50 East Colorado street, where news, advertising and orders for THE TIMES are received.]

A well-known citizen yesterday showed THE TIMES reporter a copy of one of the first newspapers published in Pasadena. It is No. 3, volume 1, of the Pasadena Chronicle, which came from the press on Thursday, August 30, 1883. It is a four-page edition with six columns to the page. Charles M. Daly and Ben Ward were the publishers. The first page contains a three-column article by Perry M. Green, better known now as P. M. Green, president of the First National Bank, being the first of a series giving the history of Pasadena. The second page contains some well-written editorial matter, including some comments on the building of a railroad through the settlement, and having been taken to carry out the enterprise of building a railroad through Los Angeles, through the San Gabriel Valley. The third page contains an interesting budget of local events. Under the head of "What the Chronicle Would Like to See" is the following, which is applicable at the present time: "Our supervisor come around this way and look at the roads. If they don't swell his head they ought to. The news matter on page 4 comprises a number of interesting clippings from Eastern papers."

The advertisements furnish an interesting study. Dr. J. M. Radebaugh's card is seen and Ben Ward shines forth as an attorney-at-law and William C. Williams, H. W. Magee appears also as a leading legal light and ex-Mayor Lukens appears in various capacities, including that of real estate dealer, architect and a seller of pipes. Messrs. Williams & Hotelling make themselves known as the proprietors of the Pasadena Hotel, and the Williams & Co. make themselves known to the public as grocers and James Smith shines forth as a leading real estate dealer. W. H. Waleley is prominent as a hardware business as a prominent "ad" shows, and E. C. Webster is one of the proprietors of the Martin Hotel. One advertisement in particular is characteristic of the days of a decade ago. Here it is: "Pasadena and Los Angeles stage line: Leaves Los Angeles from 12:35 p.m. and Pasadena at 3:30 p.m. and leaves Williams' store, Pasadena, at 9 a.m. each day. Fare, 60 cents. A trunk 50 cents. Good accommodations."

A perusal of the Chronicle of 1883 brings forcibly to mind the phenomenal growth of Pasadena during the past nine years. Few towns can boast of William C. Williams.

THE MAY DAY FESTIVAL. Tonight at Operahouse Hall the Maypole festival will be given under the direction of Mrs. P. M. Monroe, one of the indefatigable workers of the Ladies' League of the Universalist Church. The performance will commence promptly at 8 o'clock, and for a full hour the audience will be treated to a variety of songs, dances, and games, executed by twenty-six children, together with pretty ceremonies consequent upon the crowning of the May Queen.

The children will be dressed in costumes appropriate to the occasion, and the following is a list of the characters: Queen, Lucille Webster; Prince, William C. Williams; Macomber, crown-bearers, Lida Conger, Marian McGilvray, Lottie Menner, Grace Monroe, Winnie Keese, Sarah Coleman, Clifford Wood, Clifford Wood, Clifford Wood, Frank Eddie, Oscar Kunzman and Frank Roche; fancy dancers, Misses Marie Lippincott and Marie Peirce, Masters Douglas Sovereign and Ralph Conger.

A general dance will be given from 9 until 11 o'clock. The admission will be 25 cents, which includes refreshments. Gentlemen wishing to dance will pay 50 cents for the privilege.

A PROBLEM IN MATHEMATICS. A prominent Eastern educator has figured that a good average road through a rolling country should never cost over \$7000 per mile, and frequently not over \$2000. He then proceeds to show how the expenditure pays. To pull one ton on macadam costs just one-half as much as on hard dirt, and one-fourth as much as on sand. It is estimated that in England improved roads have made it possible for three horses to do the work formerly done by four, thus saving \$100,000,000 annually. It is also stated that with improved roads the cost of hauling coal of Illinois could be halved for \$15,000,000 per annum less than now, and that \$100,000,000 would thereby be added to the value of the farms. Here is a local problem for the mathematician to work upon to figure out how big a saving would be effected to the people of this section and how much the value of the adjacent country would be increased by building and maintaining a first-class highway from Pasadena to Los Angeles.

ANOTHER HANDSOME RESIDENCE. The foundation work of Frank H. Vallette's new residence on Colorado street, east of Los Robles avenue, were finished some days ago. Today work will begin on the building proper. It will be an imposing structure, the dimensions being 50 feet, built after a Spanish style of architecture, with the exterior walls plastered. Abner Goble has the contract for the carpenter work, the plastering and masonry will be done by T. J. De Hutt and the mill work by Mann & Daniels. Mr. Vallette is a member of one of the largest abstract companies in Chicago, and his selection of Pasadena as a permanent place of residence is a cause for congratulation both to the town and Mr. Vallette.

THE CASE WALK. Lookout for the cake walk tonight at Williams Hall. It will be a great occasion. A large body of colored folks from Los Angeles, dressed in the height of fashion, will participate in the fun which will reign fast and furious from start to finish. Some excellent music will be furnished by the colored public singers of Los Angeles. The handsome prizes will be awarded to the successful contestants on exhibition at Swan's. The prices of admission has been fixed at 25 and 50 cents. This is the same show that recently created such a furore at Hazard's pavilion.

BREVITIES. Overland traffic is heavy nowadays. W. W. Mills is down with an attack of the gripe. Attend the cake walk tonight at Williams Hall. The City Council will meet at 2 o'clock this afternoon and Mr. Vallette.

Mr. Parker of Los Angeles was drill at the army tonight. The Y.M.C.A. meeting yesterday afternoon was well attended.

The new trail up Mt. Wilson has been well patronized during the past week. Prof. Kyle will probably arrange to give six benefit lectures during next month. Kenda have sold for S. R.

Thorpe of Los Angeles the Wetherill property on South Moline avenue to Mr. Stults of Boston for \$3000.

A free day festival will be held to-morrow evening at the Methodist Episcopal Church.

The members of the W.R.C. netted a satisfactory profit from last week's flower festival.

J. J. Fernand delivered an address yesterday afternoon before the Society for Ethical Culture.

The local baseball cranks are becoming uneasy over the way San José has been knocking out Los Angeles.

A praise service was held at the Baptist Church yesterday evening, at which some excellent music was rendered.

The remains of Dr. Davis will be started for the East tomorrow in charge of Mrs. Davis and son of Willoughby, O.

The election of a new member to the Board of School Trustees will furnish the next cause for local excitement.

Street cars will run tonight for the accommodation of those who wish to attend the May day festival at the operahouse.

A bus load of noisy picknickers from Los Angeles passed through town yesterday morning en route for one of the cañons.

The funeral of Lorenzo Fisher of North Pasadena took place yesterday afternoon from the North Congregational Church.

Funeral services over the remains of E. C. Ingalls will be held at 2 o'clock this afternoon at Reynolds & Van May's parlors.

There was a light precipitation of rain Saturday night. The clouds cleared away about noon yesterday and the afternoon was clear.

The usual large number of Sunday visitors were noticed in town yesterday morning, notwithstanding the weather's threatening squalls.

T. P. Larkins, one of the Pasadena delegates to the State Republican Convention, left yesterday for Stockton. The other two delegates go today.

Charles Ingalls sold to G. W. Wetherill the brick business block on Colorado street, where the Brunswick Billiard Hall is located for a cash consideration of \$6500.

The brick building is being rapidly completed. It will be a handsome structure, and will prove a central point of attraction when the open season is over.

A gospel temperance union mass meeting, free for all, will be held this evening at 7:30 o'clock at the Methodist Episcopal Church, where the Rev. W. J. Campbell, pastor of the First Methodist Episcopal Church of Los Angeles, and L. L. Abbott of San Francisco, originator of the gospel temperance union.

POMONA.

The Flower Festival Closed After a Successful Season.

The Flower Cases Will be Tried—New Officers of the Board of Trade—Brief Items and Personal Mention.

[THE TIMES branch office for Pomona is at the corner of E. Marshall and C. streets, where news, advertising and subscriptions are received.]

The flower festival has come and gone and those having the affair in hand have every reason to be satisfied, both from a financial and an entertaining standpoint. Friday evening's entertainment, though not so well attended as the other evenings, was very interesting, especially to those who had not previously attended.

The children will be dressed in costumes appropriate to the occasion, and the following is a list of the characters: Queen, Lucille Webster; Prince, William C. Williams; Macomber, crown-bearers, Lida Conger, Marian McGilvray, Lottie Menner, Grace Monroe, Winnie Keese, Sarah Coleman, Clifford Wood, Clifford Wood, Clifford Wood, Frank Eddie, Oscar Kunzman and Frank Roche; fancy dancers, Misses Marie Lippincott and Marie Peirce, Masters Douglas Sovereign and Ralph Conger.

A general dance will be given from 9 until 11 o'clock. The admission will be 25 cents, which includes refreshments. Gentlemen wishing to dance will pay 50 cents for the privilege.

A PROBLEM IN MATHEMATICS. A prominent Eastern educator has figured that a good average road through a rolling country should never cost over \$7000 per mile, and frequently not over \$2000. He then proceeds to show how the expenditure pays. To pull one ton on macadam costs just one-half as much as on hard dirt, and one-fourth as much as on sand. It is estimated that in England improved roads have made it possible for three horses to do the work formerly done by four, thus saving \$100,000,000 annually. It is also stated that with improved roads the cost of hauling coal of Illinois could be halved for \$15,000,000 per annum less than now, and that \$100,000,000 would thereby be added to the value of the farms. Here is a local problem for the mathematician to work upon to figure out how big a saving would be effected to the people of this section and how much the value of the adjacent country would be increased by building and maintaining a first-class highway from Pasadena to Los Angeles.

ANOTHER HANDSOME RESIDENCE. The foundation work of Frank H. Vallette's new residence on Colorado street, east of Los Robles avenue, were finished some days ago. Today work will begin on the building proper. It will be an imposing structure, the dimensions being 50 feet, built after a Spanish style of architecture, with the exterior walls plastered. Abner Goble has the contract for the carpenter work, the plastering and masonry will be done by T. J. De Hutt and the mill work by Mann & Daniels. Mr. Vallette is a member of one of the largest abstract companies in Chicago, and his selection of Pasadena as a permanent place of residence is a cause for congratulation both to the town and Mr. Vallette.

THE CASE WALK. Lookout for the cake walk tonight at Williams Hall. It will be a great occasion. A large body of colored folks from Los Angeles, dressed in the height of fashion, will participate in the fun which will reign fast and furious from start to finish. Some excellent music will be furnished by the colored public singers of Los Angeles. The handsome prizes will be awarded to the successful contestants on exhibition at Swan's. The prices of admission has been fixed at 25 and 50 cents. This is the same show that recently created such a furore at Hazard's pavilion.

BREVITIES. Overland traffic is heavy nowadays. W. W. Mills is down with an attack of the gripe. Attend the cake walk tonight at Williams Hall. The City Council will meet at 2 o'clock this afternoon and Mr. Vallette.

Mr. Parker of Los Angeles was drill at the army tonight. The Y.M.C.A. meeting yesterday afternoon was well attended.

The new trail up Mt. Wilson has been well patronized during the past week. Prof. Kyle will probably arrange to give six benefit lectures during next month. Kenda have sold for S. R.

THE FLOWER FESTIVAL. Tonight at Operahouse Hall the Maypole festival will be given under the direction of Mrs. P. M. Monroe, one of the indefatigable workers of the Ladies' League of the Universalist Church. The performance will commence promptly at 8 o'clock, and for a full hour the audience will be treated to a variety of songs, dances, and games, executed by twenty-six children, together with pretty ceremonies consequent upon the crowning of the May Queen.

SAN BERNARDINO COUNTY.

Regular Meeting of the California Pioneers.

Proposed Constitutional Amendment as to Membership Defeated.

Rev. Dr. Wells on Distinctive Features of Unitarian Belief.

A Scholarly Discourse on the New Thought A New Budget from Riverside The New Redlands Schoolhouse.

SAN BERNARDINO. [Branch office at Stewart Hotel news stand, where news, advertising and orders for THE TIMES are received.]

At the regular meeting of the Pioneers on Saturday afternoon there was a large attendance. But there was little do except to have a social time. Mrs. Artemesia Tompkins and Mrs. Minerva McVaine being qualified, were admitted to membership. The proposed amendment to the constitution, extending the time for admission to membership, was, after discussion, put to a vote and lost.

The petition being presented to the county asking for a free public road into the mountains, was reported and being received with favor.

WHAT THE DISCOURSE. Despite the disagreeable weather there was a large congregation to hear Dr. Wells' sermon upon the distinctive features of Unitarian belief. The subject yesterday was "What do Unitarians believe about the Atonement?" His reply was that Unitarians believe in the atonement, but not in the commonly accepted teaching of the doctrine as a masterly piece of expiation of the new thought upon this much talked-of dogma, and was illustrated with historical references and liberal quotations from literature.

The four-minute race had a large number of entries. The winner of this race was the horse that was nearest the wire at the expiration of the fourth minute. Drivers were relieved of their time-traces before the horses began to score.

The most remarkable race of the afternoon was against time by W. Willitt's Gray yearling pair, Silkwood, who paced repeatedly one-half mile in 0:18, a 2:24 gait.

THE SEWER QUESTION. At the meeting of City Trustees tonight the question of a proposed drainage system for the city of Santa Ana will be the principal feature. Some days ago the trustees signed their willingness to do the will of the majority in this matter, and as there was a mass meeting held in Spurgeon's Hall last Friday night, at which there was not one dissenting voice in the matter of securing a good and efficient sewer system for the city, but which passed unanimously, some very strong resolutions urging the trustees to take immediate action for the construction of a sewer system, it may be expected that the result of tonight's meeting of the board. What the result will be, however, is not yet known.

The parlors and clubrooms of the Union League headquarters in this city have been repainted, refurnished and reequipped. The new parlors are a very comfortable and cozy appearance. All members are invited to make free use of the rooms.

F. W. Sanborn, District Attorney, says: "I think sewers should be built just as soon as they can be had, not only for the health of the city, but they will also attract Easterners here. Take sewers in connection with the water works, and the city will draw cards that will attract home-seekers here."

The Orange county delegates to the Stockton convention left yesterday for the seat of war. Messrs. Arthur of Orange and Hubbard of Justin were unable to attend owing to pressing business matters. The county will be represented by T. C. Hull, F. W. Sanborn and E. S. Wallace of Santa Ana, S. G. McPherson of McPherson and E. R. Amerette of Fullerton.

F. W. Sanborn and E. S. Wallace have been selected delegates to the National Republican Convention of the National Republican League of the State of California, to be held in San Francisco May 6. The delegates selected will go from the Stockton convention to the San Francisco convention before returning home.

An Outrage for Which There is No Reason Under the Law.

The other day one of the leaders of society in this city drove up to the Central Police Station in her carriage. She ordered her coachman to stop in front of the Chief's private office and with a flourish of her costly skirts she sailed in the office.

A glance at her pretty face was sufficient to inform the half-dozen detectives who sat in the inner office carefully studying the pictures of noted criminals which by the way, is a favorite occupation of theirs when they are not engaged in the active chase, that she was a very angry little woman.

She asked for the chief, and when a meek-voiced detective replied that he was not in her anger became ungovernable, and for a few minutes the thief-takers were afraid that a fit, heart disease or something else would follow her explosion, but she suddenly cooled down when one of the officers asked her if her husband had eloped with another woman.

"No, sir, but a terrible outrage has been perpetrated almost under the very eyes of the police, and I want the whole police force to follow me to the scene and arrest the wretch who has ruined my \$300 dress."

"If you will explain matters, madam, we will do all in our power to set matters right," mildly remarked the French detective.

"I started out to make some calls awhile ago, and as there are several ladies on my list who have just returned from Europe, I was dressed in the latest style. After I had gone a few blocks I suddenly remembered that I had some important shopping to do that could not be delayed, so I drove down to Spring street, and just as my carriage stopped in front of the Phillips Block some wretch raised a window on the second floor and emptied a whole spittoon of tobacco juice in my lap. My dress is ruined, and I want the horrid person arrested and locked up," and she uncovered the front part of her handsome silk dress, displaying a number of ugly stains.

"This is quite serious, madam, but I don't see what we can do for you," mildly replied the harness detective.

"Don't see what you can do?" and the society leader again gave way to her anger. "I should like to know what the police are for. My dress is ruined, and if you do not send out and have that filthy wretch arrested at once I will see that my husband has the entire force dismissed."

Seeing that the little woman might go off in a fit or something of the kind one of the sergeants, who is noted for his gallantry when the fair sex are concerned, came to the front and offered to go with her. This seemed to satisfy her, and in a few minutes the carriage was standing in front of the Phillips block and the sergeant was going from room to room on the second and third floors.

In about twenty minutes he returned to the carriage and mysteriously approached the angry lady. He placed his mouth within a few inches of her pearly ear and whispered:

"Mum, them's pigeons." Not another word did he utter, but straight to the police station did he go, and for three hours he held his sides and laughed in a solemn way that is common among policemen and undertakers.

THE IMPORTED "Present King"
SHIRE STALLION
Will stand for a limited number of mares, besides those of his owners, for the season of 1892, at the San Rafael Ranch, Garvanza, Cal.

"PRESENT KING" was foaled in 1886 in Nottinghamshire, England, and took several prizes at fairs in that country, one at the Birmingham show, and was sold at the 2000 pound show in 1888. He was brought to the United States in 1888, and has since been exhibited once, when he took the first premium at the Los Angeles fair of 1888. He stands five hands, is black with white spots on his forehead; weight about 1600 pounds. He is entered in the English and American Shire Horse Stud Books, and his pedigree includes a long list of prize winners. He is a very sure and steady, and a large number of his foals can be seen on ranch.

Terms: \$5 for the season, or \$10 for single leap, payable at time of service; mares taken at their owners' risk; the usual return privileges. For pedigree and further particulars apply to C. S. CAMPBELL, JOHNSON, San Rafael Ranch, Garvanza, Cal.

JAPANESE PILE CURE
A new and complete treatment, consisting of Suppositories, Ointment in Capsules, in box and pills; a positive cure for external, internal, bleeding piles, hemorrhoids, recent or hereditary. This remedy has been known for years, and is now being sent by mail. Why suffer from this terrible disease when a written guarantee positively given with a box? To refund the money if not cured. Send stamp for free sample. Guarantee issued by C. F. HEINZMAN, Druggist, sole agent, 228 N. Main st., Los Angeles, Cal.

MILLINERY SALE

Prices Made Low to Meet Popular Favor.—Largest Assortment in the City.

Very little money goes a long way at Mozart's Millinery Store.

Depend upon it, we are carrying the largest and the finest millinery stock in Los Angeles. We pay strict attention to every detail. Our trimming stylish, our goods the latest. "Look about a bit" and you will soon see that we are the POPULAR MILLINERS, and why? Because our goods are the latest designs and our prices the lowest.

We buy millinery direct from the makers, not from San Francisco nor from Chicago, but from the eastern manufacturers and European importers.

One more reason why. Because we deal exclusively in millinery and buy only for cash, not thirty days nor 60 days, but spot cash. If we can't sell fine millinery cheap no one can.

We beg to announce a large lot of Flowers in high-class grades at unusual low prices to close a job lot of a maker.

We have just received from New York by express an elegant line of the latest designs of Fancy Ribbons, Flowers and Straw Shapes. We are known for low prices and tasteful trimmings.

Our Dressmaking Department is managed by Miss Herberger, teacher of the Ladies' Tailor System, and cutter of all the latest Novelties.

May 1, 1892.

Our stores this week will show you the improved character of our merchandise and the reduced prices considering their value. We are alive to your necessities and realize the public purse. Sterling values will induce you to visit us. Our merchandise equals and exceeds others; for the past year we have raised it standard. Our ambition leads us to an increase in trade, which we would could only be accomplished by catering to the better class of patrons. With hundreds of thousands of dollars at our command and all the merchandise that we could sell, do you imagine that we can be equalled? Is it possible that we can be excelled?

Dress Goods.

BLACK DRESS GOODS.
50c
Imported Novelties, all wool, checks and stripes, 35 inches wide, satin finish; sterling value at 50c.

75c
A sublime quality of 44-inch black all-wool Serge, a sterling value at 75c. A 44-inch all-wool Henrietta, all-wool, and a 44-inch all-wool black Bedford Cord. These are trade-markers. They cannot be imported from France today at the price offered on our counters.

1.00
Black silk-warp Henrietta of a magnificent quality, and fancy weaves. Bedford Cords in various new designs; superb quality. A sterling value at 1.00.

60c
40-inch black silk-luster Sicilian. These goods cost 50c a yard to manufacture in Bedford, England. If you want Sicilian this is the best quality for the money that has ever been offered.

Paris patterns of gray Satin Stripes upon Bedford Cord grounds. A handsome suit, sterling value at \$20.00.

Paris patterns of Gray Beige with flowered satin stripes, exquisite suit, sterling value at \$18.00.

Paris patterns of solid colors, extra wide, Wale Bedford Cord, and the finest of the latest materials imported, sterling value at \$15.00.

Paris patterns of two toned Bedford Cords, the newest and latest importation, sterling value at \$14.00.

Gray all-wool Bedford Cords, French all-wool Challis summer weight fancy Dress Goods in Chevrone, zigzag and shot effect, weaves. All-wool Serges and Henriettas in the newest shades and colorings, goods that are sterling values at 65c to 85c a yard.

50 pieces of figured, flowered, dotted and plain China Silks. These are sterling values at 75c a yard. These silks will hold the thread and will not tear out at the seams and are not the common flimsy tissue paper silks manufactured for a cheap sale. If you want to become acquainted with our silk stock and are making prices that will bring you close to it without the necessity of a formal introduction.

A line of Wash Silks warranted genuine Kobe—the standard article in the silk market today. We could job every yard we possess at \$1. Quality and patterns are sublime.

We do not draw upon our imagination when we say that we have the choicest selection of printed India and China Silks in Los Angeles. Our buyers have exerted themselves in the selection of designs and quality, and if you can buy a yard of silk similar to ours within 50c of our price, we are perfectly willing to forgo the sale. They have been pronounced by customers more elegant in design and of a better quality than anything sold in this town at 50c.

Changeable Silks 24 inches wide, extra heavy quality. There are not 50 pieces of changeable silk in the New York market today. The run on these goods has been phenomenal. Were it simply to sell them, we could turn over ours for \$1.50 per yard at wholesale, but we want you to know that we carry fine goods in our silk stock, exquisite patterns, and we sell them more reasonable than any concern in town.

Sterling values in 37-inch Black Surah, in black grosgrains, Bengalines, Failles, Jersey and Rhadames Silks. All silk warranted from 50c to 50c, cheaper than the same quality can be purchased for in Los Angeles.

All silk satin stripes, from frame Grenadines, as handsome a piece of material as you have seen in many a day. They are an exceptional value at 1.00.

Flowered silk, striped, all silk from frame Grenadines. These goods were imported by Ethel Bros., of New York, who had more than they could use in their business and turned over part of them to us at a reduced price. There is not anything like them this side of New York for quality and beauty of designs. These goods are given away at 50c per yard.

We Carry Paper Patterns.
